### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David I. Klein on May 8, 2006. The application has been amended as follows:

In claim 1, lines 3 and 4, "said top couplings" has been changed to —each said top coupling—.

In claim 3, lines 4 and 5, "said top couplings" has been changed to —each said top coupling—.

In claim 4, lines 4 and 5, "said top couplings" has been changed to —each said top coupling—.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach the platform being covered at a bottom and all four sides thereof with steel plates adjacent to a concrete foundation being provided with externally threaded rods that are extended from the top and bottom ball couplings adjacent to the concrete foundation through the steel plates into the concrete foundation; a flat bed

positioned on top of the platform and provided with a plurality of externally threaded rod or an anti-vibration and pressure resistance elastomeric material on the bottom of the platform to wrap all screwed and/or welded joints of the couplings, connecting bars and vertical supports, in combination with the other elements recited therein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
